100w-SKULLCAP-Scutellaria. Botanical name unknown. We call it "Blue Heaven Skullcap". Aug. 15 to 18". Pretty blue hooded flowers in terminal clusters literally cover the multiple crown plants. A real gem blooming at the same time as the small goldenrods and Red Lobelia. Equally at home in ordinary garden soil or dampish soil. Full sun. The leaves are willowlike & opposite. It took us years to develop our stock from a LONE plant brought to us by a botanist friend. Offered for the first time. Stock limited. \$1.00 each 3..\$2.25....6.....\$3.75.

Do you have a rare or unusual wildflower you would like to tell us about? Do write us.

We have many wildflowers in small quantities. If you don't see your needs listed write us.
